

Laura Jacobs

Laura Jacobs will be a senior in civil engineering at Purdue University in the fall of 2004. She is majoring in structural engineering with a minor in Spanish.

Upon completion of her bachelor's degree, she plans on pursuing a master's degree in materials science engineering and a Ph.D in earthquake engineering.

She plans to teach and do research in the field of earthquake engineering. Laura is the Marshal of Chi Epsilon, a CE

ambassador, a mentor, member of SWE, and a Sundayschool teacher. She was born in Austin, TX, but has lived most of her life in Ypsilanti, MI and enjoys hiking, camping, running, swimming, baseball, and watching Boilermaker football.

**Adam Rosenbaum**

I am Adam Rosenbaum, a senior at Colorado State University. I am majoring in Mechanical Engineering

with a minor in Mathematics and am a member of the honors program at CSU. I plan to attend CSU for an additional year to get a Masters degree in Mechanical Engineering focused in performance engineering or energy and environment.

I spend my free time playing basketball, golfing, running, hiking, snowboarding, reading, watching sports and sleeping. After I finish school, I plan to work in the automotive or defense industries hopefully in a research and design division, and purchase a ridiculously fast car.

**Nick Stites**

Nick Stites is a senior at Colorado State University pursuing his B.S. in Mechanical Engineering. Nick is unsure of his plans after graduation, but is considering entering a masters program in engineering or business. Originally from Cedaredge, CO, a small town in western Colorado, Nick enjoys spending time in the mountains, playing sports, and restoring automobiles.
