

**Heather Chiamori**

Heather Chiamori is currently a senior at UC Berkeley and will graduate this December with a B.S. in Mechanical Engineering. She is a member of the Society of Women Engineers, Pi Tau Sigma, and Tau Beta Pi. During the school year, she works at the NASA Ames Research Center Arc Jet Complex at Moffett Field, California, as an Engineering Associate. In her spare time, she enjoys playing basketball, biking, and spending time with family and friends.

**Andy Thein**

Andy is currently pursuing his Master of Science in mechanical engineering at the University of Cincinnati, where he received his Bachelor of Science in mechanical engineering in 2003. During his undergraduate studies, he participated in the International Co-op Program. Through the program, Andy worked for six months at the Research and Innovation Center (FIZ) for Bavarian Motor Works (BMW, AG) in Munich, Germany. At BMW he researched automobile testing and development methods. Other work experience includes a total of twelve months as a coop engineer at MANTA Corporation, a consulting firm located in Milford, Ohio. MANTA Corporation specializes in mechanical testing and analysis, and Andy was involved in a variety of projects for many clients, some of which included GE Aircraft Engines, General Motors, Chrysler, A.K. Steel, and International-Navistar. As a member of the 2003 Formula SAE team at U.C, Andy was heavily involved with designing and building the race car's suspension. In his free time, he enjoys backpacking, climbing, and golfing.
